WINTER & SPRING 2025 THEME: ASSISTIVE TECHNOLOGY

Low Vision Accessibility for iOS

In this training, participants will discover how iOS devices can empower individuals with low vision to navigate daily life with greater ease and independence. This training will showcase the built-in accessibility features of iPhones and iPads, including magnification tools, screen adjustments, voice commands and more. Participants will gain practical tips for customizing their devices to meet their specific needs and enhancing their digital experience.

Upstate: January 28th 1pm - 2pm

Midlands: January 23rd 12pm - 1pm

Lowcountry: January 16th 9am - 10am

Webinar: January 31st 12pm

Coffee Talk:

Essential Apps for Vision Accessibility

This coffee talk session will guide participants through various cell phone applications that support daily life for individuals who are blind or have low vision. From apps that assist with navigation and reading to tools that help identify objects, colors, and people, attendees will discover a range of options that can increase independence and accessibility. Join us to discover new tools, swap recommendations and learn how technology can open doors to greater independence.

Upstate: February 11th 1pm - 2pm

Midlands: February 4th 1pm - 2pm

Lowcountry: February 18th 1pm - 2pm

Events are open to all ABVI clients who are blind or low vision. Participation links and details will be emailed after registration. Events may be In-Person or Virtual.

To Register: Email us @ info@abvisc.org or Call 843-723-6915

Be sure to follow us on social media for updates.

“Alexa, Make Life Easier”: Smart Solutions for Vision Loss

In this training, participants will get a basic introduction to Amazon and Alexa products and learn how they can enhance independence for people who are blind or low vision. From voice-activated commands to smart home integrations, participants will discover practical tips and strategies to make the most of these tools in managing daily tasks and fostering independence.

Upstate, Midlands and Lowcountry: TBD

SCAT Expo: March 25th

Swipe, Tap, and Explore: VoiceOver Gestures Made Easy!

Learn the foundational gestures for using Apple’s VoiceOver screen reader in this hands-on small group training. Designed for beginners, this session will guide participants through essential gestures, such as navigating, selecting and activating items on iOS devices. Whether you’re new to VoiceOver or want to strengthen your skills, this interactive training will provide the confidence to explore your device independently.

Webinar: TBD **Upstate:** March 11th 1pm - 2pm

Midlands: March 4th 1pm - 2pm

Lowcountry: March 27th 11:30am - 12:30pm

Coffee Talk: Connection and Community

This coffee talk is about discovering more ways to access and engage with your local community. We will exchange ideas and build confidence in overcoming barriers to access the opportunities that matter to you. Join us to discuss resources that foster social engagement and strategies for staying up to date on events relevant to your interests.

Upstate: May 13th 1pm - 2pm **Midlands:** May 6th 1pm - 2pm

Lowcountry: May 20th 1pm - 2pm
